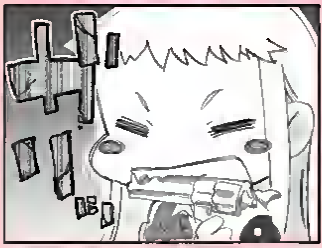
Ta-da!
I made some gun-shaped choco today!
Valentine's day, right?
That's our Nen-chan!
Yay~

Oh!
I'll have one~
This vintage gun looks a lot like a real one, huh



WIKE HEVY IT IS! GET WOST!
That's the real one I used for the mold!
Oh-
Good that it was Karita who bit it

Let's try firing a gun today
And always make sure to wear the goggles
Release safety and pull the trigger
and don't aim at people
Roger!

O-ok...
Or rather, don't peek in the muzzle!
Man, that was scary

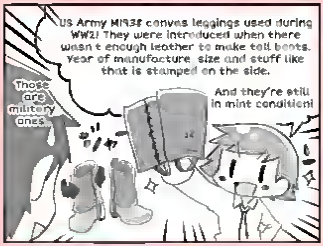
I'm fine, this happens occasionally..
Yo, Yumi! A true soldier shouldn't scream so loud even when surprised
カサ・カサ・
GYAAH
Kuri-chan, you're heavy
どて

I know, right?
It's convenient not just for this but also for carrying all these small accessories
Yaechan, that's a guitar case, isn't it

Nice!~
Case, huh..
I'd like one as well

You'll have to make sure that you can fit everything in the case, as it'd be better if you brought the gun along
When you go to the store

I don't have a case to carry the gun to the store!
I can't go buy it...
Aaah, but, but..



US Army M1938 canvas leggings used during WW2! They were introduced when there wasn't enough leather to make tall boots. Year of manufacture, size and stuff like that is stamped on the side.
Those are military ones!
And they're still in mint condition!

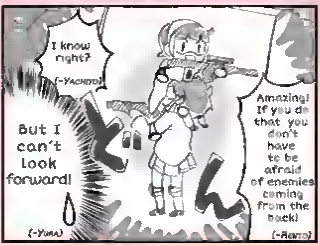
Even if I turn my back for a split second I always get hit, every time

Like this, I can become Yuracchi's back-eyes!
I got it, Yuracchi!



I know right?
(-Yacchi)
But I can't look forward!

Amazing! If you do that you don't have to be afraid of enemies coming from the back!

* Kids, don't try this at home. don't you dare follow Ren-chan's example

Yo!
We're gonna do some target practice today
Sounds fun, I'll try to make some
Since we're doing this...
Let a shoot human dummy targets! Something that'd be worth aiming at
じゃーん!
Done!
Ooh...
Hanako! How the hell are we supposed to aim at THIS?
Too damn ere
Not at all~
It'd be fun, ehehe

In order to avoid any faults
Make sure to take the gun apart and clean it
That said, give it a try!
Just like I explained earlier
R-roger!
What's wrong?
T-that is too embarrassing
Eh... Chou-jirou.
What an imagination

Well, now try putting it back together as fast as you can
Y-yes!
I'm starting the timer

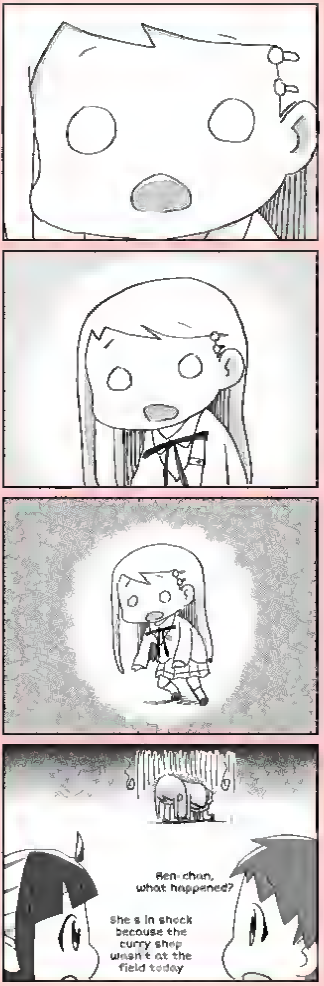
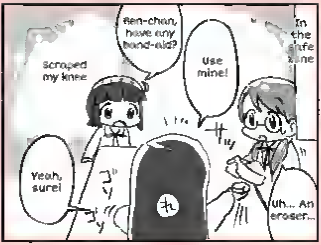
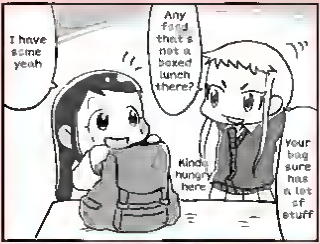
Waah, so cute
You've gotta be kidding me!!
It's great, but in an entirely different way!!!
Well, kind of like this



Ren-chan, what happened?
She's in shock because the curry shop wasn't at the field today



Ren-chan, have any band-aid?
Scraped my knee
Use mine!
In the life zone
Yeah, sure!
Uh... An eraser...



I have some yeah
Any food that's not a boxed lunch there?
Your bag sure has a lot of stuff
Kinda hungry here

We can boil some water
I have a kettle too
Just how did she pack all of this...

There's no power outlet here
But
I'll take this

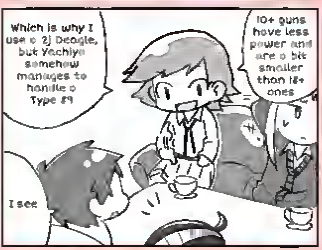
Our guns are easy to service, but batteries are a fly in the ointment
Sure they are
I use rechargeable ones, yet I still need a while lot

Me too!
Let me help you!

Ah!

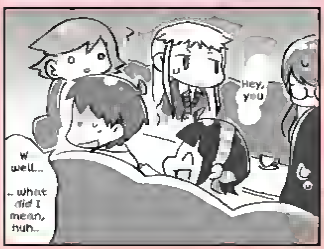
I'm fine
Oh snap
I've only scattered the batteries!
I can't tell which ones were the rechargeable ones.
splaaaat~

BOYS GUN
GUN
Speaking of airguns, we're not 18 yet so there are some we can't use for now
Makers distinguish 10+ and 18+ guns, so we have to follow that
Sure



Which is why I use a 2J Beagle, but Yachiyo somehow manages to handle a Type 89
10+ guns have less power and are a bit smaller than 18+ ones
I see

"Somehow" you said?
...you, what do you "see"?
What did you mean by that?



Hey, you
W well...
...what did I mean, huh...

#21

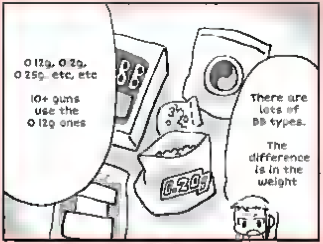
This? No way
I'd rather any horse-back archery
Horse-back archery is just about shooting when mounted
Yabusame is more like a Shinto ritual

She was trying to stirrup some emotions but that sounded somewhat hoarse

* http://en.wikipedia.org/wiki/Yabusame - mounted archers shoot at three stationary targets while riding their steeds at full gallop

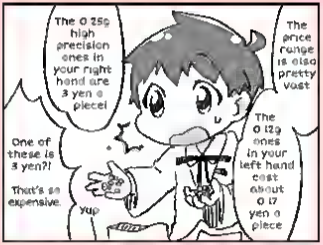
** The original pun was a play on UMA (horse) and UMAI (skilful) Forgive me for not being able to properly adapt puns

For starters what does BB stand for?
Let's study BBs today
Ah
Yuna?
Hm—
B-b-b-basketball?!
That's a high-profile spare!
And the ball is too damn huge!
Hmm... well...
Blue-berries?
Next, Nenru!
But that's a fruit!
And it's so tasty..
Hmm
Haneka, your turn
Beautiful Boy!
And the correct answer is...
You lot are just picking things you like!



0.12g, 0.2g, 0.25g, etc, etc
10+ guns use the 0.12g ones
There are lots of BB types.
The difference is in the weight
0.20g

You can't tell them apart at a glance though
Whoa
I see
Rattle Rattle
There sure are a lot of kinds



The 0.25g high precision ones in your right hand are 3 yen a piece!
The price range is also pretty vast
The 0.12g ones in your left hand cost about 0.17 yen a piece
One of these is 3 yen?!
That's so expensive.
Yup

TAP
Yo, yuna!
What cha doing?

じゃーん!
Look, look
I made this!
What's that?
And so I refitted it to store BBs
I found this mint box on eBay!
Decorated it and such
So cute!
Wow!
Hey there!
Wow!
Cool! It's easy to carry and it looks cute!
I should make one as well
Ah-
Hey, these mints look tasty
Mom-

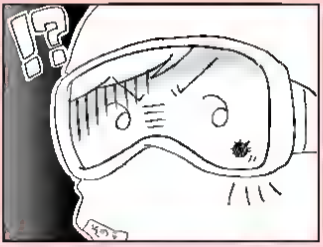
Won't be afraid of hugs this way!
...this should help, I think
Ta-da!
There's been a lot of hugs lately, so...
Look, look!
Wow!

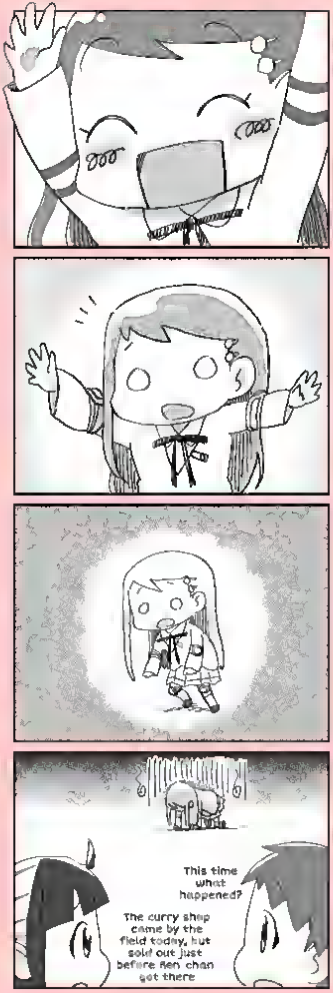
I can forget about being stung by bugs
And just like this



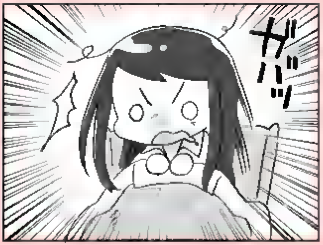
!?

The bug is INSIDE!!
AAAH! It's inside!

Found it in the storage
Look, look!
This giant poncho can turn into a tent!
Just like this
Poncho tent huh
Oh!
It's pretty cute
Oh!
Su-uys!
I brought tea and cakes and stuff...
.. where is everyone?
Where did they all... !?
Woah
Yeay
I'm starving



This time what happened?
The curry shop came by the field today, but sold out just before Ren chan got there



ガバッ

Of course!
For us too? That bug is huge
Yeah!

Air cocking is silent
It has great range and accuracy too
Yachiyo-chan, which sniper rifle would you recommend?

* An air cocking airsoft gun sometimes referred to as a spring weapon is a model of gun that must be cocked by hand before every shot The bullets fly out using spring propulsion

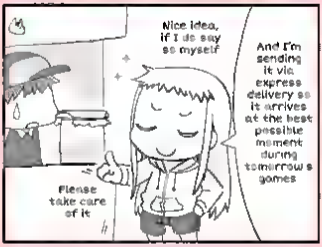
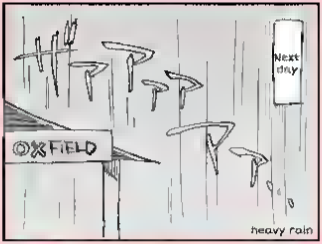
There is no such thing!
Eh?!
When we get home I should really teach you how to cook, Sonsei-sempai...
And it tastes good!
Ehh?!
This is more than enough!
(The state of the kitchen should better stay a secret)

The deluxe special course made by our mansion's very own chef!
Heheh!
Today our lunch break is
てててーーーん!
I'm digging in!
Amazing!
First, there's a thick soup made from green peas
Also some appetizers and then there's pizza and pasta
Waah
Main course!
Next, the...
When is this gonna end!!

But I made this curry and left it overnight to make it super tasty
They probably expect to make fun of me for not being able to cook
ぐつぐつ



Nice idea, if I do say so myself
And I'm sending it via express delivery so it arrives at the best possible moment during tomorrow's games
Please take care of it



Next day
OX FIELD
heavy rain

My M my— My— curry... is
It's a pity, but we had to cancel aircraft today
Hey, are you listening?

じゃんっ
To record your valiant efforts
I'll be a combat camerama-n today!
Karina-senpai!...
...is so cool!
I'm trying to hide, and yet it feels like I'm a sitting duck today
Teh
She's escaping to the left! Fire! Fire!
Ene-my
She doesn't seem to notice that she's targeted because of yuri...
This time to the center!
Is Karina an idiot?

All right, let's do it!
Someone's here?!
I wonder if this counts as a hit...
What is it even doing here?

#90

I'd better bring a lot of spare ammo
Well, since various accidents could happen during a game
Hmm..
Don't come out!
You airhead!

Run out of bullets? What's that?
All right!
The "Yeah, that's a lot of magazines" strategy!

Awesome!
And fire away non stop!
Change as much as you like!

I mixed up the full ones and the used up ones!..
Aah!
Which ones were which ones?

Ahh
Yeah, can't play airsoft
It's so boring during rainy days

Ah!
We could have an indoor match in the unused old school building
Isn't it a bit too old?
Isn't it pretty run-down?
Won't get wet that way!!

Don't say that
Just follow me!

NO WAY IN
HELL
Well, should we store?
...

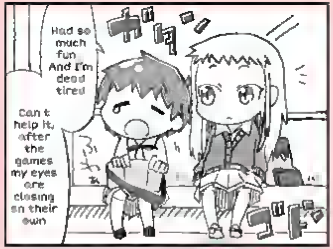
Hold on just for one more round!
We'll get some lunch after this game
Yeah!
This time I have to make a comeback
I can't hit anybody today...
clench
GROOOWL
Ah~
Fire! Fire!
There she is!
Waah!
Hit!

Today we're practicing night warfare! Let's do our best!
Hm?
Who's there?
GYAAH
uwoh
Senpai, senpai, you're way too much of a scaredy-cat
It's just Yacchan
Stop! It hurts! It hurts!

Senaro-sempai, it's so dark, yet you don't seem to need scopes or lights?
Isn't it the same as during the day?
You infer the position of the enemy using the sound of their gunshots
silencer equipped Desert Eagle
Eh!? Isn't that some sort of super power?
Is it really?
Hit!
Hit!
Hit!
Look
Er
.. that is charmingly awesome

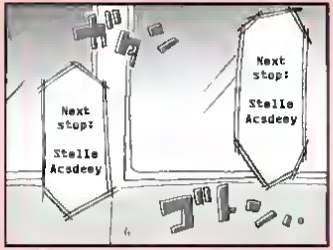
Ren-chan, you're also not equipping anything at night?
Isn't it the same as during the day?
Piece of cake right?
Could it be...
Calculating the enemy whereabouts...
Ren-chan, are you just like Sonora-sempai?
I can't do any of these computerized things
But then how do you find the enemies?
...wait
I know, right
I just see them as usual
scary..

So cool!
Wooh, a headset!
Hello, hello, do you read?
Pretty useful, huh
Just kidding!
Lets you directly communicate with comrades from afar
Karina-senpai, what are you doing?
Huh
What? I haven't even turned it on yet...
Eh?



Had so much fun And I'm dead tired
Can't help it, after the games my eyes are closing on their own

Get on my level, I've also played a lot but I'm as lively as ever
ehhahal
That's our Karina-sempai
Yura, Yura, ever so naive



Next stop: Stelle Acsdeey
Next stop: Stelle Acsdeey

Wake up, please!

I'm home!
Airsoft was as fun as ever
Welcome back!
Gotta eat dinner in a flash, do homework, study for the test.
And after that I'm going to read stuff
Have to... do my... best
Have to...
Huh?!

I wonder which one is the strongest?
There are so many guns
Hmm
Should be silent... Must be able to shoot a lot. Must be cute. Gotta be really cool, too.
Should be good at both close and long distances... Gotta have a scope.. gotta have a light too...
Look, look!
I made the strongest gun!
Yuchiyo chan!
Can you even shoot that?
ずしっ

A 100% wooden one!
Oh
My ideal gun is
And since it's made out of wood it's a natural camouflage!
That kind of gun is so impossible
Ehehe
If it's made from the leftovers of lumber manufacture, it's pretty ecological, too!
Oh
It didn't take me long to make one
Hehehe
...Is what you'd think, but.
So it does exist!
ちぎ
んっ!
It's also silent and you don't need any special tools to make it!
...but aren't those just chopsticks?!

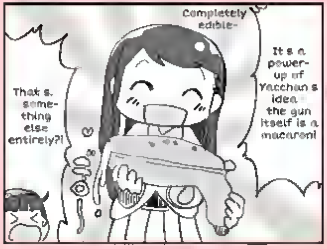
What kind of gun would you love to have?
Say...
The one that under natural conditions makes bullets fly in a straight line, without being swayed?
What kind...
Hmmm
Aren't all guns like that?
Eh?
Just how much are you calculating?
Enemy
distance
Initial velocity
temperature
gas pressure
Wind
Listen, it's like bullets losing their speed when carried away by the wind and such
Calculating all that for every shot is a pain
I hate math!
Ugh

I'd like to have a gun that..
...would make wind blow when it's shot
Huh...
Just how useful can that be?
Isn't it cool?
Plus it's safe
That, and also..
I could flip skirts of cute girls...
as much as I'd ever want!
Ha ha ha
bear print~
STOP THAT!

Yuchyu-chan
Is there a gun you'd love to have?

Yeah...
I think a gun that shoots macarons would be really cute
And eating sweets during a match is just perfect

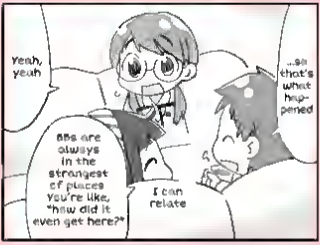
Wanna see the one I made?
That's our confectioner!
Already made?!



Completely edible-
It's a power-up of Yucchan's idea the gun itself is a macaron!
That's something else entirely?!
But still awesome!

Yuna, I've figured out what would be the strongest gun!
I will become the gun myself!
I see..
Just kidding, tee-hee
Shewering scurrying enemies with fits of close range using my unrivaled agility!
Where's my gun?
Air safe day
Huh
Here you go!
Ta-da!
So you don't need one
Can't you just scatter bullets with your hands?
Like heli I can!

So, the schedule for today is...
Huh?
There was a BB in the bag?
That's a surprise guest..



...so that's what happened
I can relate
BBs are always in the strangest of places You're like, "how did it even get here?"
Yeah, yeah

When it hail pens during a game
It feels really awkward yet I can never take them out

So where you were going to say..
do you find these BBs?

ガサゴソ
BABY

BABY

Every single one fell out!
So where did you say you find them?!!

Break through!!
Attack!!
Let's go, girls!
I'll cover the back!
Don't peek!
Stop it, Sena-chan!
Your "old man" level rose way too high lately

Hit!
Here here and advance just like that
Hey, hey, a bit to the right
The enemy is going to notice!
Hey, that's too much! Come back, come back!
Hehe, sorry my bad, my bad
Stop it, Kurina-chan, cheating is not allowed

Hit!
uh
Oh, sorry I couldn't see you!
So there you were!
Didn't I say I was hit already?!

Hit!
Ouch

Kyah
Hit!

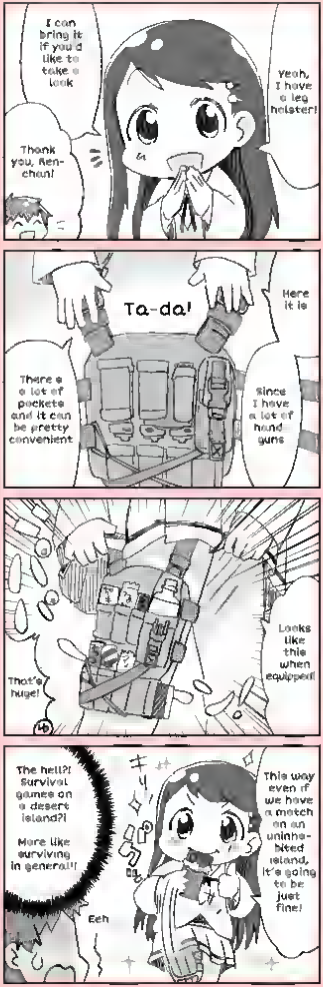
Ah, me too...
I wonder why?
Lately I keep getting hit in the chest

Right?
Right?
Because it protrudes from behind the trees!
The simple squad
The not-so-print-curling brigade
Don't you dare tell them

What cha looking at?
Oh, Yura.
PDA
Hmm
I just thought that leg holsters could come in handy
Ah, Sonora-senpai
Ooh
Leg holsters are great!
Especially since Caby plays airsoft in skirts
So that's why we're playing in skirts in the first place...
Flutter-Flutter-
Like this when you have to draw out the gun
Gu he he

Hm? A leg holster? I have one
Wanna see?
Yeah!
Here it is
So this holster is fixed really firm
The belt wraps around the butt
Looks like it's easy to move around with it!
Let me try putting it on.
wait, I can't wrap it..
Eh... huh.. Did the belt shrink or something
Uh That's.
Senpai! The belt is probably not the issue here...
Done!

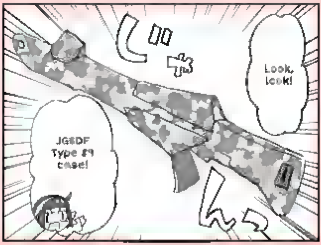
Let me bring it
A leg holster? I have one, of course!
Thanks, Yaechan!
Since I like longer guns like, eoy
Type 89 or L96... I tinkered with this so I can insert these
Ooh!
Instant equip!
Ooh!!
Aren't you scratching the ground with the tip of the barrel?!
Awesome, right?
Hehehe
How's that?



I can bring it if you'd like to take a look
Yeah, I have a leg holster!
Thank you, Ren-chan!
Ta-da!
Here it is
There a lot of pockets and it can be pretty convenient
Since I have a lot of hand guns
That's huge!
Looks like this when equipped
The hell?! Survival games on a desert island?!
More like surviving in general!!
Eeh
This way even if we have a match on an uninhabited island, it's going to be just fine!

I need some examples
Wanna see mine?
Yureka, you're buying a leg holster?
Sure!
It's hard to move with bigger ones and those with bigger capacity are too heavy
I see... Yeah that makes sense
Mobility is very important to me so I use a simple one
Ooh! That does look cool!
Looks like this!
Since when are we airsoft paratroopers?!
Eh
I won't get blown away when jumping with a parachute
It's like whoosh
I'm totally airborne
Fluel..

Say, Yuna
Have you bought a leg holster after all?
Yep!
I saved some pocket money to buy it
Ehehe
Ooh, it looks great!
Try putting it on!
Something like this!
Aren't you right-handed?
How do I put it
That one is for left-handed use.



Look, look!
JGSDF Type 89 case!

It's also waterproof and a perfect camouflage.
You can shoot the gun if you just unzip the tip
Ooh!

Huh, waterproof you say..
Let's see, let's see...
Ah-

It can't be waterproof if the water is already inside!!
Don't throw it unzipped like that!
Kori-chan, you monster! The devil herself!
Ahaha
Sorry, sorry

Kari-chan, that was way too mean!
I'll make sure it's going to survive the next fall into a pond!
I'll send every possible yap!
ビ
ベタ
ベタ
During the game
Oh. I ran out of ammo.
Gotta change the maga-zine
カビ
...but it's all covered in tape!
I can't swap maga-zines like that!
Kari-chan, you idiot!

ガラー
Good afternoon!
Oh, Yuna!
Wah!
Just what is that?..
I see..
I painted my entire body with it - so I don't need actual come clothes!
Grease-paint.
It's face paint for camouflage
Since it's pretty hot lately
I smeared some
Ah-! Ouch! That hurt a lot! Not in the torso! Jeez! Aaah!
During the game

Wanna try?
That's a military balaclava
What's that?
Y-yeah!

Somehow I feel awkward
Uuuh
Ah-
Yuru

HA-CHOO

You wash it and give it back
Uwaah, I got it all icky
It's like, ewwww

There it was
Photos from our middle school!
So nos tal gic!

Yuna!
Come, look, that's sana-chan's long hair from back then
Wow, looks so cool
Haha, somehow I feel embarrassed
Oh, that was Rento's punishment for being late
Wha

Why were we doing this again?
Huh.
15 minutes left until going home
Wow

I'm back
Did you finish cleaning that club room?
Oh crap we were in the middle of cleaning

Since there's no club activities because of the rain, let's go home together Ren-chan left already
Yura-cchi-
Yacchan!
sure!

Eh
A light
You're taking that home?!

Wah!
?.. Yep
Don't point that at me!!!
What's so odd here?

Eh?..
Eh
Aah... That was an umbre lla...
..huh
What, wanna get wet?

Found it while cleaning the storage room
Oh, if that isn't a gas mask

Can't find out who's behind the mask, huh
I'd like a costumed match some day...
But we won't be able to tell who's who this way

!?
So you'll be able to do things like this

Sorry! Sorry!
You're going to kill me like that!!!
Air intake
Don't block it!
Can't breathe.

And really huge ones
I found some six-item carabiners!
Waoh
It's so cool
Ah
Then.. I'll connect them like this
Since I'm not using these, feel free to take some
Really, can I?
Thus there is no set I can't bring
It's pulling my pants off..
It's a pain..
Leave it already!
わた
もた

That's a nice idea!
Y'know, we should really make some cri ginal cabu pins or badges or something!

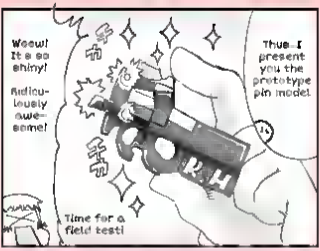
Ooh...
Ooh!
R-K
If we use every-one's initi-als...
Shaped like our guns?

No, no!
Ah!
Using real jewels would be even better!
Out of gold or...

That's not pins anymore, that's more like treasures
And custom made, too!
Even better, Tiffany's!

Way too expensive

Ok should I make one?
Something really cool
With, like, a flash-light-luminescent pin, something like that
I'll be ridiculously flashy



Woow! It's so shiny!
ridiculously awesome!
Thue.. I present you the prototype pin model
Time for a field test!

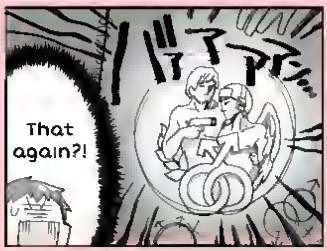
He he
Let's try this

...Somehow I seem to be a ridiculously good target today?!
Why is this happening?!!
yet

Yeah! You're so good at drawing, so give it a shot, please!
I'll think of something
Gabu badge...

I have a feeling this is going to be amazing
Gotta give someone a gun, too
Hmm... something cool... And also eye catching.

Sure!
Wanna see?
Well, I made a rough sketch, so...



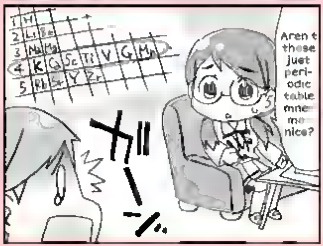
That again?!

#128

Yuno
Is she studying?..
Kinge can scream till vast crowds mean. Kinge can scream...
Huh
Screaming meaning kinge?

I should know a lot of military codes, yet I can't quite put my finger on it..
Huh.
It feels like I've heard this before, but...

More like someone who spent all night trying to remember..
And in the end it was futile...
Kinge can scream..
Whoa, you're like a bear woken from hibernation!
Mornin-



Aren't those just periodic table mnemonics?

Would be nice if we had scopes that could tell us the enemies equipment, like in games
Yeah, sounds good
True
But if it was you, Ren-chan...
Please check their equip!
Ren chan, enemies are moving in! Two from the right and three from the left!
Roger that!
Hmmm
I'm so hungry now...
Candies brand new candies everywhere!!
The one in the right thicket has a Tuta gingerbread, and if I look to the left
Uh What about the guns?

Scopes that show us enemy equipment?
Hmm...
Yeah, would be nice if those were real
Roger!
Hanaka-senpai, I see the enemies!
Two on the right! Three on the left! All of them male!
Hm. Those two on the right...
There's some kind of relation, right, right?!
From top to bottom they have matching equipment!

Yeah
If we had these, I'm sure it'd be really fun!
Scopes that gather intel on the enemy?
Two on the right, three on the left. One of them is a girl!
Sonora senpai, enemy in sight!
Got it!
That girl...
Huh?!
Yuna, take a look, take a look!
She's helluva hot!!!
No. Thanks. You.

If I had those
Scopes that can tell us about the enemy equipment?
Two from the right three from the left!
Yachiyo-chan, the enemy is coming!
Roger!
Hm..
That third girl on the left..
Yachiyo-chan, that has nothing to do with their equip..
She's shorter than me!

It's a new type of camouflage!
No matter the terrain, it's going to blend right in!
Ooh!
I bought an A-TACS smart phone case!
Hehheh
During the game
Now that I've hidden myself since I have this, communication becomes really convenient
RING RING RING RING
OH SHi-
BEEP
Aaah, I forget about that!
I'll be found if I don't turn off the sound!!

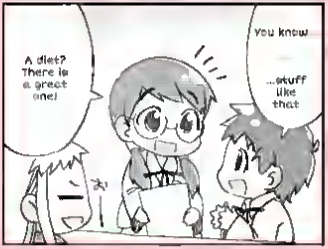
Whew
squish
Extra fat?!
Uwaah
I-I-I've got to work out, or else!! ..
What good is that?!!
But I'm so plump ..
Yaechan, you're in good shape lately

So you were dieting, Yacchan...
But I'm really not into such bothersome things.
So my arms are pretty squishy
They are, huh
Urgh
And when I strain it...
Whoah!
This is awesome in some round-about way!!
Uwah, how...
But in the end they're still pretty squishy

What' cha doin'?
Showing off your physique?
Waaah
Ah- hey- Ikenta, that tickles!
A-aha-aa-ahahahaha-
If that's the case, you can take a look at my majestic supple muscles!!
Yacchan!
What?
...hm? Huh?
BENTO, YOU CUR!
In this area?
Somehow there's not enough... you know!

Don't worry
If there were one, I'd try it myself
Is there no decent diet, huh

ガラッ
Hm, what's going on? What's troubling you?
Hanaka senpai! Afternoon!

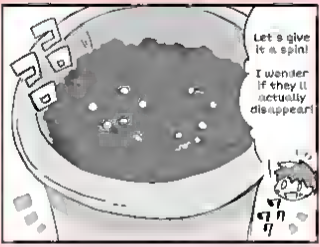


A diet? There is a great one!
You know... ...stuff like that

For each hour of drawing you can burn more than 100 kilocalories...
Which is just perfect when you need to turn in that sixteen-page guest doujin manuscript and you are already running out of time!
Wow!

Ah..
Stars...
So pretty...
A shooting star!
Wah!
Hit!
A low-in-the-dark bullet?!
Yuna, we're in the middle of a night battle, duh
Don't space out!
GYAH!

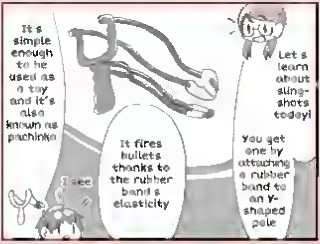
Hmm
...that means they should decompose in the ground
Bio-degradable pots...
So..



Let's give it a spin!
I wonder if they'll actually disappear!

After-noon!
Next day

This one doesn't seem to sprout very well...
You don't say this one was a dog after all.
Oh, Yure-chan!

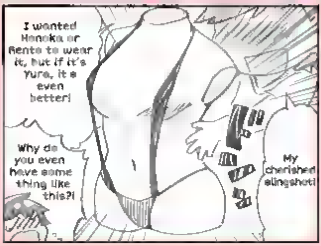


It's simple enough to be used as a toy and it's also known as pachinko
I see
It fires bullets thanks to the rubber band's elasticity
You get one by attaching a rubber band to an Y-shaped pole
Let's learn about slingshots today!

He-heh!
Yachiyo is a slingshot pro!

I've used one in middle school, but...
I've never seen you with one
That's our sniper!
But Yachiyo-chan...

They were delicious!
And Ren-chan ate them all
Since BBs are too small I used beans as ammo



I wanted Haneka or Rento to wear it, but if it's Yura, it's even better!
Why do you even have some thing like this?!
My cherished slingshot!

It's called a slingshot because the shape reminds you of a slingshot

Camouflage?
I know, right? I made this!
You're just like a hermit crab!
Kuri-chan!
Not just camouflage, but also an impenetrable defense!

You could make a hole for the barrel!
Ah!
You can't fire if you don't come out of the box
I can see how it can be used for hiding, but what about shooting?
Genius!
Hm

All right!
Now then..

Ah
I can't see a thing

Is that a Python?
No matter what I do, the gas doesn't come out
What's up?
It was supposed to be easier to pull

I had a spark of inspiration!
Let's try this out!
Can't fire the gun?
Leave it to me!

What're you going to do? Remodel it?
Ren-chan...
Yura-chan, help!!!

So you just thought that if you can't pull the trigger with one finger, you should try with two?
My fingers got stuck!..
It's dangerous to wave it around...

Can't you use it if you make a hole to see through?
Not being able to attack after going to the trouble of making this...
The field of view will be too narrow.
Then, what about this?
Oh, a periscope!
Ah!!
But I feel that something is missing here...
What are you, a snail?!
Now it's cute!--
Done!

There's not enough survival games under heavy rain, so don your swimsuits and go outside!
Hell yeah!

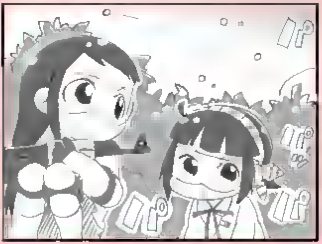
But since the guns will break if water gets inside, make sure to wrap them so they'll be waterproof
Yeeep

Rain blocks out the nearby sounds, so let's just like a real battle-field!
ガアアア
Enemy in sight!

You went overboard with the wrapping...
wrap
Blowback doesn't work?!
...eh?

Well then, time for some camo paint!
All's good and well with using swimsuits during the rain,
but the skin exposure is too much
GREASE PAINT
Sonora
How's that?
There you are, Karina~
During the game
Oh!
GYAH!! IT'S ALIVE!!!
The paint is dissolving so you totally look like a zombie
Karina
Sonora
Freeze!

Ooh what's that for?
じゃーん
So I got a mirror for today's match
I see!
To look for enemies while being hidden
Roger!
ピー
All right, time to use it for real!
Whoosh! There's a girl of unrivaled beauty over there!
Yura, wanna see?!
I'm sure there is senpai, I'm sure she's great can we get back to airsoft already?
Yeah, yeah



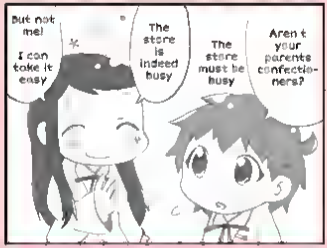
We need intel on the enemies
Ren-chan, you've brought the mirror, right?
Roger!

!?

Ren-chan, that's dange-reus!
Kids, don't try this at home!
Confirmed the enemy numbers!
Whoa- Too bright!
My eyes! I can't see a thing!

Got the mirror? How many enemies are there?
Ka-rira
Just a sec
Oh, I see one!
Er... so, everything is mirrored, so
Is that at the right?
No, left?
I'm holding chop-sticks with my left hand so that would be right in the mirror, so... the direction is... Er... huh?..
Hurry up already!

Ren-chan, what are you doing on holidays?
Lots!
I help out at the store!
Just attracting customers though



Aren't your parents confectioners?
The store must be busy
The store is indeed busy
But not me!
I can take it easy

but aren't you attracting customers?
My job is just standing there and smiling!
My dad is like, "You're just a billboard, so stand there and smile."

And you're seriously fine with that?!

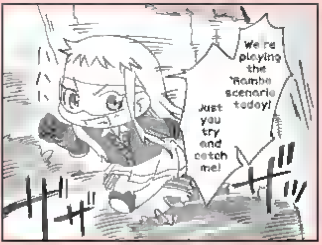
What are you doing during holidays? Practicing your CQC skills?
Karina-senpai!
Hot Dentist
Hm?
Holidays, huh...
I wake up...
...eat...
...and go to bed
I see, I see
Well, you get the idea?
Wake up, eat...
It's surprising that you actually stay at home
Wake up, eat
sleep
Nya ha ha
Yeah, right, at my home
Eh?!

Yay, I'm still alive!
Game over!

Ehehe
Good job!
Somehow you've got a terrific survival rate, Yuna

Really, sometimes you can't even tell Yuna was actually there
Why's that huh..
It can be really hard to find you

We didn't mean it like that!
I lack presence to that extent don't I...
We

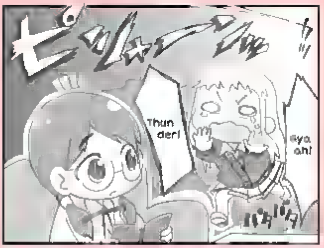


We're playing the "Rambo" scenario today!
Just try and catch me!

All right!
Now that I've gone this far, I can't see you catching up to me

Heey! Anybody there?!
I-I'm here! I'm here!
I'm stranded...

Welcome back
Hey
I'm back
...what do you girls do when you need...
to use a toilet during the game?
I just use the bushes over there
Hm... Oh, right
I was using the ones on the right
To who?
You're joking again Karina-sempai
I know, right
But it's still pretty convenient
You have to do it while standing
Do they?.. Like for real?!
Huh?!



* Japanese thunder god Raijin is known for having an appetite for belly buttons

I give up, let me... go..

メリメリメリ

How are we going to do that?
?
We're going to practice shooting moving targets
Today
What kind of target?

Do you have any?
I'll borrow one
Tossing a coin and then shooting it in mid-air
Yep, a 500 yen one

Wow
Just like that

A-amazing!
...also do this
If you get used to it, you can...
...but
That's my lunch money for today so I'd really like those 500 yen back!

For starters, flip the coin as high as you can as you have enough time to aim at it
Got it!
Give it a try Yuna

Once more
uh

ok
Toss it properly
No way in hell am I going to toss my lunch money so high I could lose it!!!
Don't just push it!

...but please use your own coin...
Let's try this together
Shooting coins, huh? I'd like to practice that, too. I'm really poor at it
I always fling it so high...
Ooh
..but every time I try to aim at it..
That's absurdly awesome in its own way, isn't it?!
..this happens

あー

Now's that the skirt also does a Hop up!
Sano chan?!

I'm done for
Don't you feel the heat?
Hono-ka...
If you clear your mind you can do anything
If the heat gets to you you have to think of things that make you feel colder
Or, rather
ME AND MY BRO
MY BRO AND ME
Pshhhh
Ha-ah
Ha-ah

Honoka-senpai...
You're sweating so much, are you all right? Should I turn up the cooler?
I'm quite fine! I'm not feeling any heat
If anything, I feel a bit cold
Summer Comiket manuscript deadline is in two hours
Which means I have about 120 minutes
Which in turn means I have 7200 seconds... And the amount of pages is...
So for each page I only have about...
Rather than calculating pages...
Shouldn't you be actually drawing them?

It's so hot... I'm going to melt...
Sena-chan, are you all right?
Uwaaah
Ho-Hena-ka...
Hey
Let g...
Kiss
I didn't expect her to be so bold
She went, like, "hey, let's kiss"
She has a heat-stroke.
Go get some more water.
What are you doing?

So hot I'll go cool off in the club room
Ok... oh, and
Don't leave your gun outside!..
.. and there she goes...
ミーン

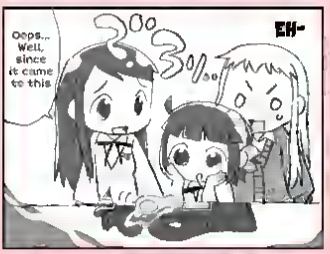
I'm back, long time no see!
Let's go for another round!
That's why I told you not to leave it outside..
YEOWCH! IT'S SCORCHING HOT!!!

Well then shall we try?
You're exaggerating Kori-chan
It's so hot you could actually fry eggs on it!

Ha ha ha!!
Well 'em fry 'em do as you like!

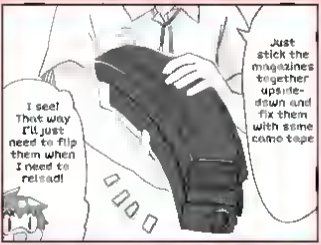


EH-
Oops... Well, since it came to this

Let's fry the gun itself on a frying pan!
Sorry, sorry!!
Leave it alone already!!

Kari-chan, your sunscreen...
It's so strong
SPF50+ PA+++
Yeah, I'll borrow some
If I don't there ughly apply it I'm done for
Yeah, otherwise my skin would get burning red in an instant
Wow... That'd be a problem
Want some?
Phew, that was a lot of shooting!
Kari-chan
Shut up!!!
Aaah
Wait
Your ears are all curry-like
I forgot to treat them yet again...
Oh, that's a pun on my name?

Let me see
Reloading is so long and tedious
There's actually a simple trick
Removing, replacing...



Just stick the magazines together upside-down and fix them with some cone tape
I see! That way I'll just need to flip them when I need to reload!

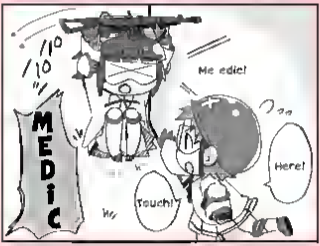
Then...

I knew it...
I won't ever run out of ammo!
Th-
This way...
That looks heavy

Quick reload?
Speaking of reloading
There's a technique called "quick reload"
Let me demonstrate
And load it while the empty one falls out
You push the magazine release lever with the new magazine
Ah but
Waw!
You need to pay attention if there are people nearby
Ow. It hurts
S-s sorry!
Sorry! Sorry!
I didn't think it would fly away like that

Revived!
Medic!
...can touch the downed players to revive them
When playing with a medic the person who is selected as one.
Touch!
Can't be healed

Roger!
So come running when you hear it!
A medic has to be called with a loud voice



MEDIC
Me edic!
Here!
Touch!

My throat is so dry... I'm dying!
Water, please
I'm here!
Please help yourself with that!

I was hit!
Medic!
Please!
MEDIC
I need one!
Thank you!
Here you go
I'm not water delivery though!
Co-ming!
GYAAAH!!
And I fell from a tree.
It's not that... I was trying to evade the bullets.

Yawn...
I stayed up too late reading a book...
Glasses, glasses
ゴソゴソ...チチチ...

Oh
Mor-ni-
Club room
Mornin
You're early today

.. wait
Did you seriously come to school in those?

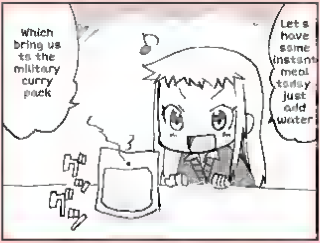
Ah... no wonder everything is out of focus ..
Do you even realize?!
Eeh

Uh... Er... Notebook And G3bu stuff too
Uwaah! I over-slept!!!

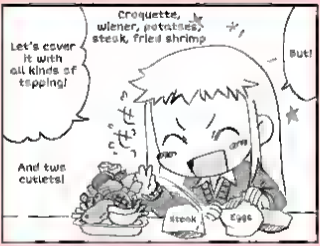
Mmm
Made it in time!

Um, pencil box.. pencil box...
All right. I'll be handing out the test papers

What the
Huh? It's not here?
So many guns?! Isn't that rouge-reue..



Which bring us to the military curry pack
Let's have some instant meal today just add water



Croquette, wiener, potatoes, steak, fried shrimp
But!
Let's cover it with all kinds of topping!
And two cutlets!
Steak
Eggs

There you go!
And some curry souce to make it complete

You pretty much destroyed it
You.
Do you feel like eating off the table or what?

It becomes an ice carrier...
It's so hot these days
It should more or less keep your body cool
If you put some ice packs into a plate carrier
Like that... huh
All right!
Chilly!
When it melts, it just becomes dead weight...
Aah..

Yacchi, do you have that camo poncho?
Wo-what?
I do, let me look for it
It's hot to look at you
Isn't it hot though? It's going to be stuffy
Well, if I plan it like this
The wind flow is actually quite pleasant
Look!
Woah
Pfft, your fashion sense is pretty flat! At least put on a bra
Not too girly, are you!
As if you ever were one to talk!

...and that "tattered" look was by design!

Sonora-senpai, how come you're moving around so much
And the hat never falls off?
Eh
Synchronized movement: whenever the hat seems to fall off, I make sure to do a counter-motion!
Ame-zing!
There's a rubber band around the jaw
She's joking
Ha ha, there goes the secret
S-s-
Yacchi, when you're wearing that you look like a kinder-garten-er!
Say what?!

They do seem good for target practice
Let's try and shoot these guys
Since you became better at aiming at small targets

Roger!
All right, fire!

. . . .

These poor things are too cute, I can't shoot them
I can't!
What's wrong?

The gun barrels are made transparent, or stuff like that.
When you can use airguns looking like actual guns like in Japan, it really is a sign of peace
In order to play airsoft in countries where real guns are common
Trans-parent ones are so cool!
I want one!
You want a trans-parent one?!
So Yuna
I heard the gist of your conversation
ドーン
Well then go ahead and put on my new invention - the see-through BDU!
I'm pretty sure I don't want anything like that

BDU= Battle Dress Uniform

Wouldn't active camo be better?
Speaking of see-through BDUs
It's also great for scouting and stuff!
Pretty exciting isn't it
While the see through one is transparent itself, the active one actually makes for a perfect disguise
I see! So I could sneak around anywhere I'd want to!
ドドーン!
You can enter these normally though... Or did you forget you are a girl, too?
(At least from the outside)
Including girls bath!
ドキ
ドキ
ドキ

I declare a state of emergency, revealing the second identity of our club and forming a special camp
Eeeh?
This might be sudden, but from this moment, since Cabu is going to take part in the Comiket...

It's your first time, isn't it
What's going on? What kind of second identity?
The other face of Cabu is the Comic Creation Club

Comic Creation Club....
So it's, like, drawing manga and stuff?
I'm pretty bad at drawing though so I'll just be a burden

Every soldier counts!
In an army
Ah
Newcomers are welcome!
This looks strange...
Don't leave me out!
You're going to participate, right?!

When is the comiket going to happen?
W-well then
Whew
In six days
Can we even make it in time?
It's all right Yuna, you don't have to worry!
At most we're going to draw a 32-page manga, some color illustrations, and we'll make some original merchandise
Can we make it in time?
That's absolutely impossible!
Ha-ha-ha-

For starters why do we even have to help you?
Isn't it your fault for forgetting about the deadline?
Guh

Bulls-eye, huh? I bet you even forgot about the Comiket itself!
Uuh

I forget about it because of all that commotion not too long ago, just before I went in the application
Hm, wait
Just how long ago was that "not too long ago"?

Give it back already
Don't worry. I remember that fine enough
Like, the lunch money from last week..

So basically, Honoka's crisis is the club's crisis, and we've got to overcome it together!
Girls, you should all know by now that Otsu is built around camaraderie

If we unite our forces, we can make it!
...remembered about that at the last moment...
That's right, plus...
Except she only...
Honoka applied for this Comiket out of concern for our club money

Girls!
!

If it's you saying that, then it doesn't bother me
Yeah, right
It's also because she can't produce a single joke on her own

We'll need a bath
I hope it's not this run-down club room
But where?
Well, it can't be helped we'll have to live together for a while
Say, Yuno-chan
Yeah, I do, but..
You live in a dorm, right?
And it's a double one that you share with Sono-chan?
Y-yeah.
Ugh
She's scaring me!!

If we're going to live together, our room should do just fine!
おおー
You've got nothing to be shy about, we're all girls!
Yeah
Why do you agree so easily?
Eeh?
ガチャ
Well, come in
My room is the bigger one so that's the one we should use
Don't mind if I do
Feel free to make yourself at home
It's too narrow unless we clean this mess up!..
GUU
HIYA
TAH

Sorry for the intrusion!
Here we come!
Welcome!
Come in, come in!
Nen chan has a lot of luggage
Yacchan Nothing at all?!
Booom!
They'll also install all the furniture
Don't worry. I've ordered two 4-ton trucks from a moving company
Are you moving in for good?!

Well, for now
We have to decide where to start
Haneka, explain our strategy
All right!
We have two days to illustrate 32 pages of manga.
And also 4 colored ones
Can't we make it shorter?
Then why 32 pages and 4 in color?
That's an oddly specific number. Did you have something in mind already?
I already paid for printing in advance because that was cheaper
You paid without any idea, whatsoever?!
Look into my eyes when you're talking!!
Did I?
Or did I not?..
汗汗

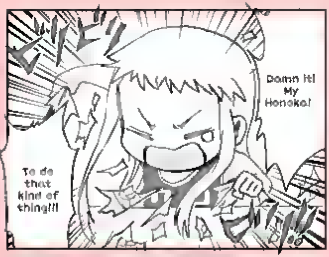
Let's make a 4koma!
Listen!
I have a proposal! In this situation, instead of a normal manga
I really like this!
That's a good one!
The ones where they do nothing but drink tea seem to be quite popular!
It can be exclusively about doing cute things and drinking tea!
Nice idea!
That's true, if we make a 4koma
Ooh!
Let's get some tea right now and let puns flow while we drink it!
Well then
Somehow I don't think it works like that!!
Eh?!

I'll go exercise for a bit
I'm beat
So she...

Hm what is Hanaka sempai doing?

Hmm-
But that can be solved with money, right?
Th-that's... Somehow... Please do that... One way or another...

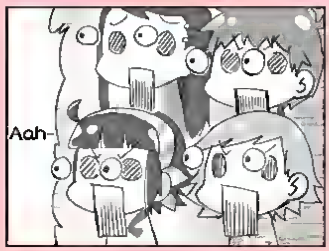
Has occurred!
A great calamity
What's the rush?
And what's with the sudden personality change?
What, what?
That matter is meaning less right now!
Listen to what I have to say!
Hm?



Damn it! My Honoka!
To do that kind of thing!?!

Ah-
ガチャッ

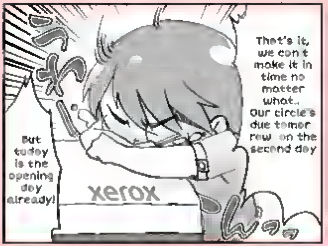
I'm back, ee...
Any progress on the manuscripts?



Aah-

The printing company couldn't meet the deadline so I just asked them for a refund
No more weird misunderstandings please!
If we can't print the manuscripts, we don't need them anymore, right?
Not quite
And that's it? Yuna really did jump to conclusions
With this we can copy them ourselves!
バーン!
I borrowed a brand new photocopier from the literature club!
Aaah

Where are the manus cripts?
What's wrong, you lot?
.....



That's it, we can't make it in time no matter what... Our circle's due tomorrow on the second day
But today is the opening day already!
xerox

That's our Sensei-chan! To unite everyone like that. We might have a chance after all!
Make things you like and attack with everything you've got!
Don't give up, Hori-kita!
Girls, time to bring out your own talents!

Rento's parents are confectioners so I hope it's something cute!
I'm always hanging out at the store so I'm proud of it!
I'm done!

Penmanship?!
SPECIAL SALE TODAY

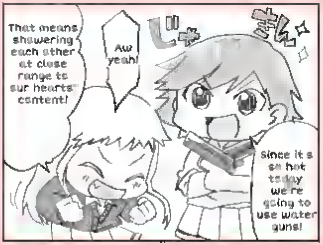
That's it...
Early morning of Comiket day.
This time it's over for real.

Hey you, Comiketters! Don't treat us like strangers! Never even said a thing

Illust rations
...we drew a manga
It's not like we made it for you or anything
Girls.. Thank you!!!
Print pens too!

Buy up our stock
Ah
We're just reseL-lers?!
Our share's 50% of the proceeds

Afternoon!
Heeey! Let's have a match!
It was so busy yesterday at the comiket
I guess we should let her sleep
Yawn...
Kari-rusa
!?
She's calling out to you in her dreams...
You must get along really well!
Y-you idiot!
Are you trying to pick a fight?!
If you keep getting the chair ge wrong, our wall will be as flat as your chest!
Stop it, don't argue with a dream!



That means showering each other at close range to our hearts' content!
Aw yeah!
Since it's so hot today we're going to use water guns!

Take that!
Kya?!

Waah
Sane-chan, that's...
Oh wow, it's see through now!
Sexy!
Tch
Nice job, Kurihara!

All right!
Soak me in water, too!
Ren-chan!
How's that?
Kya
Woh
Now even I...
Hey
You look like a wet elementary school girl
Youuu!
Change clothes before you catch a cold

#201

Take that!
Kyah!
Huh?.. This water is colored?..
And it has a sweet smell..
And it's all sticky
I used this!
Shaved ice syrup?!
strawberry syrup
It's because
You don't have to worry if it gets into
your mouth!
Is that some kind of fetish play?!
And this way we can lick each other's wounds!
Kya

In that case, my favourite is Nue Hawaii!
Shaved ice syrup?
しゃ
きっ

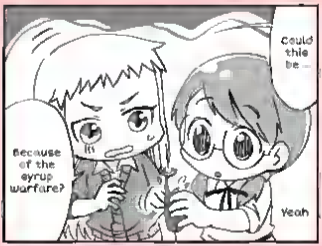
I've charged mine with an assortment!
Kyaah!
I've got strawberry
じゃ!!
しゃ

I can't tell what kind of flavor that is anymore
Heh... Now I'm soaked in everything at once
びしょ
びしょ

ずいっ
Please stop. I'll give you
Then let me taste you!

dem enough

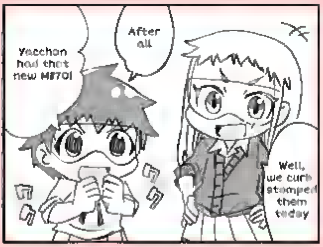
Eeek
A horned beetle clinged to your back
Leaving that aside
Sono chan
Gahl..



could this be—
Because of the syrup warfare?
Yeah

UWAAH
What's wrong Yachiyo?!

SAVE MEEE
GYAAH
NO- NO WAY!



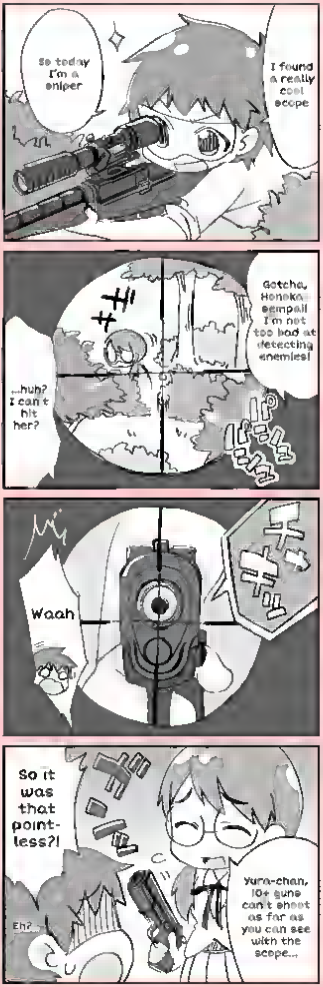
* The original pun wasn't much better: a play on the word HACHI (bee) and the fact that the first two kanji in Yachiyo's name can be also read as HACHI. These kanji also mean "8000" so that might be related as well.

Where did I put it. If I don't find it ..
Huh

For a game?
Ah.. a gun, it's called a Gall
Sono-chan!
sonnra-sempai what are you looking for?

I've opened the bottles!
Oh!

Yep. I wanted some things to open bottles with!
Eh?!
She opens bottles with guns?
I feel pity for her
Next time I'll just ask Ikento



So today I'm a sniper
I found a really cool scope
Gotcha, Honoka-oempai! I'm not too bad at detecting enemies!
...huh? I can't hit her?
Waah
So it was that pointless?!
Eh?
Yuna-chan, 10+ guns can't shoot as far as you can see with the scope...

It's so hot
It's so hot lately that I can't bring myself to do anything
Are there no fun things to do..

We had that comic creation camp recently, but what about another kind of camp - on an island?
Vacation!
Woah!

That sure cheered you up
Airsoft camp!!!
Leave the preparations to me!

HEAP
Girls, we're bringing all of this!
We'll be playing!
Just how much do you want to play?!

#208

All right, for starters we should set up camp!
Let's do it, just one more push!
At last we've arrived on the island!!
So, where are...
the tents and the food?
Oh crap- we've only brought airsoft stuff and games?
Eh-

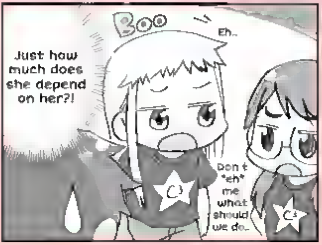
Just what are you talking about?...
Tents you say? Food you say?!
Didn't you say it yourself?!
"Leave the preparations to me"?!
Didn't I?!
Well I did bring every thing for having fun!!
But...
But I
What about water, food provisions and tents?!
We can't survive without those!!
I thought that you would have
...handled all of that stuff!!!

We have nowhere to sleep either..
Aah.. so we won't be able to eat today
With blame in your eyes?
Why are you looking at me...
Because it is your fault!!!
Duh
Please forgive me for my irresponsibility!!!
All right, all right!
I have to do this, don't I?!
eh?

There is some scrap lumber
That s o problem .. A place to sleep as well, but especially food...
Hm...
Grrrrr.

— on our selves
By the way
I- well...
Basically, we don t have a change of clothes either
Only what we have...

Whenever I m the one packing things
Hey you
I even make sure to pack your panties



Boo
Eh..
Just how much does she depend on her?!
Don t "eh" me what should we do..

Heeey!
Look what I have!
CRACKERS
CRACKERS
Fireworks
Potato
Stuff left over from the last trip
What's all this?
Heheh
What "deduction"?!
Wait why does she even speak like a detective?
So you can see that my deduction was absolutely correct!
Yeah, right- I definitely did think of this

Sano-chan brought a lot of stuff, but that's far from enough..
Hm..

Let's just order something online
They should deliver fast enough

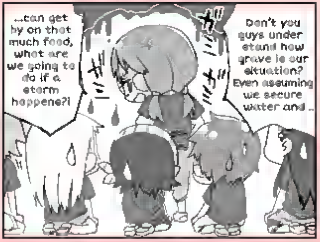
We don't even have a signal in the first place!
Look!
Are you in Hi-t?!
Who do you think would deliver to this island?!

Damn it!
Then we don't need this..
useless thing!
GYAAAH

I'm starving
Same here... so hungry I can't move
I can't even put on a smile anymore
Girls!
My body and my soul are both drained
...fruits and berries!
I've found some edible...
Hey, Rento!
I'm coming!
"Can't even put on a smile", she says—
Eh

Fruits are good and all, but how are we going to cook them?
Hmm... Hm...
You really didn't bring any...
Well, there are fire-works! Lighter! Hmm...
...kind of tools, did you?
I'll go search that mountain of toys!
Hey!
Ah!
I'll help her!
All right!
You guys just want to play around there, don't you?
Who doesn't, really?!...
Let's do this!
Mun...

Stop playing around already!
Sorry
Tch
And since it's originally your fault, Karina, for once act like a senior and do some-
...thing
You called?
Why are you wearing this?!
Sano-chan- you're the club president- say something!
Uwaargh!
You're slacker number one, dammit!!
Hm?
What's up?



...can get by on that much food, what are we going to do if a storm happens?!
Don't you guys understand how grave is our situation? Even assuming we secure water and...

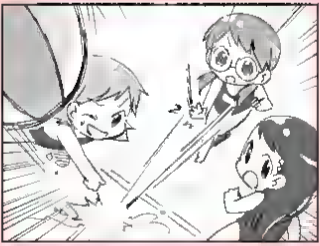
I mean man, even Sena-chan.
We should stop playing around and seriously think about our plans starting tonight

Huh.
Ah
Hey! Hana ka!

We took the boat to explore the caves on the island!
Kyaaah! Wait for meee! I'm coming!!!

Mon!

Henako
Yamiyo

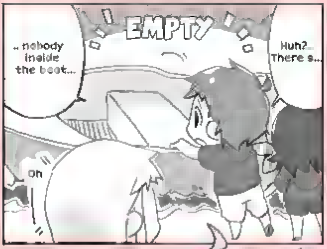


You're the first in line to blow off the tension, aren't you
This and that, she said, don't have fun, she said
Kanna
Yachiyo

I-I'm not having fun!
I... I... I was just going to catch some fish!
share some when you catch it...
Hana
Well, well...

Sana-chan and Kenta you handle the water please!
Yachiyo and Kanta, make a fire
Yuna-chan, we'll arrange some food together
Ok! Let's catch a lot!
What shall we do?
For just a bit longer
Let her enjoy heaven
Hey, is there any food?
Heaven huh.
I'm so hungry
None at all!

Waah!
That's not fair!
What'cha roasting?
ボワー
Fish?
Waaah!
What are you doing?!
Gimme some, too
I have to light 3 fires!
It took me so long to make a distress signal!
Wow!
A boat's coming this way!!!
It's not so easy, you know!
A ship come by!
See, I knew it
Oh, did you now?!



The time-honoured tradition, summer camp battle between Cabu and the Sato family starts.. now!
You guys don't let your guard down!

* That's a reference to vol.1 of the Cabu manga

#222

HMS AOI
This boat is more important to you than I am
No...it's cool, I get it... This thing...
Sorry, we really didn't mean it like that
This
Stupid thing!
Whoops. It got washed away by the waves...

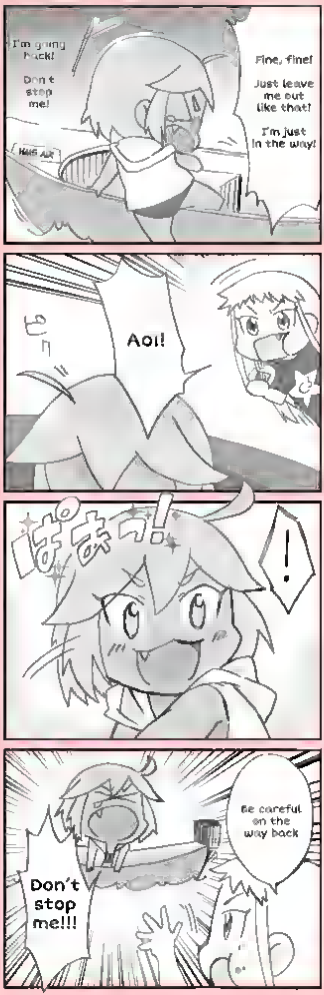
Gasp!
Heeey!
Ao-chan!

Three fires means it's an S O S!
What were you planning to do by going empty handed?
Aloe clothes and emergency supplies
Here, food
Man, Ao-chan...
Said that she saw a signal fire and just dashed away like that

Yeah, it's food!
It's really food!
Ooooh!
Kinako!
Thank you so much!
So different from Ao-chan!
As expected of the most reliable Setsu!!

Dig in already!
Thank you! I'm starving!
Oh! After the meal, let's have an air-soft match!
Aw yeah!
We're in too!
Uh... Play with me too...

#224



Pretending like you're trying to is even worse

Well, we're full ss it's time for a match!
Yay!
Aw yeah!
Aoi, you guys start from the west side
And we'll go to the east side
A light!
We won't lose!
The game is on!
Attack!!
Aoi-chan, Aoi-chan!
It's suspi ciously quiet
Well...
They're just that exhausted
They fell asleep?!
ZZZZ

#226

And so we spent the rest of our camping trip playing airsoft with Aoi and her team
And it was a lot, a lot of fun

I'd like to come here again next year

Well, that was fun!
Now that's what I call a summer vacation
Must be nice, hen
Speaking of which, when does our 2nd term start?
On the 9th
Aoi-san and the others sure have a long vacation over there in the south

ISN'T THAT TODAY?!
.. wait
Opening ceremony has already started!!

That's one really compli-cated signal.

And she under-stood it!
That's Yacchan for you!!

Ah, that
Ren-chan, what was that signal a while ago?
It was the
"I found a shop with very delicious cakes so let's go there"
signal

Though you didn't get it?!
Let's go let's go
Ah, so that's what it was!
Well, I'm glad I agreed!

#228

Jokes by: Yuna

Adv
ance!
Adv
ance!!

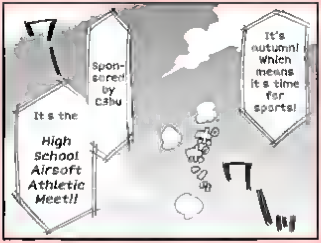
Karila-senpai, your hand signals are nothing but "Advance!"
That's rude
I know other ones, too
Looks like it

Then
What's this?

That's "Halt!".
I figured you'd know nothing but "advance"
. . . .
"Do your best to advance!"

#230

I wonder if we could buy some thing with the remai inder of our club funds for this semester
MILITARY GOODS
SALE!!
SPECIAL BARGAINS!
Buy me that yellow camouflage rifle that came out recently
I'd love an airsoft tank
Buy me a matching plate carrier
This figure set is so rare! And it's on sale too!!
They're dangerously hot!
Rejected!

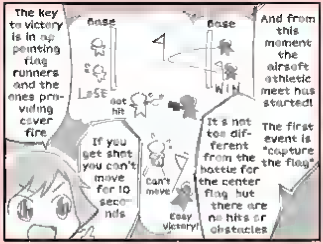


It's autumn! Which means it's time for sports!
Spon-sored by Cabu
It's the High School Airsoft Athletic Meet!!

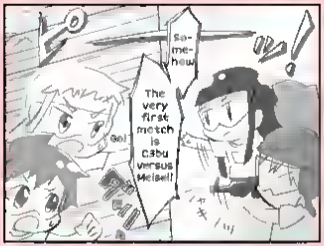
The friends of Cabu have come all the way here from afar to participate!
Aga-in!
We're here
This event consists of a lot of various survival game elements!
Seto Family

HQ
Ri-in! Even that suits you well!
Guh
Haruna Rin is here too!

C-
Ca-bu!!
She was dragged here against her will, apparently
Consider-ring that, she's actually wearing her gym uniform
Peek-aboo
Un-forgiva-ble!



The key to victory is in up pointing flag runners and the ones providing cover fire
Base
Base
LOSE
WIN
Got hit
And from this moment the airsoft athletic meet has started!
If you get shot you can't move for 10 seconds
Can't move!
Easy victory!
It's not too different from the battle for the center flag, but there are no hits or obstacles
The first event is "capture the flag"



Somehow
The very first match is Ozbu versus Meisei!
Go!

We can't go for the flag like this!

But... we can't end the game unless someone takes it to their base
Won't lay a finger on the flag!
Ozbu

First come, first served!
The second match is between KGB and the Seto family!!
Which means, leave it to me!
Ah!
Start!

Wait right there!!
Huh?

Don't underestimate us!
Hehehh.. Cloud in these ninja outfits we can dash with the speed of the wind!

Cool, eh?
Tap tap
you guys, go compete already!
It's just cosplay...
Huh.
Woah! That's wicked cool!!
The hell is that?!

#234

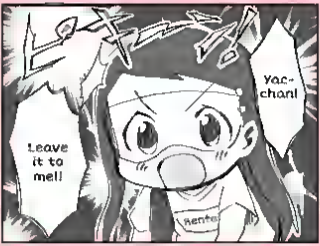
The next event is the mixed team "Toss the bullet"!
Ow ow ow
Uwah
It's in my clothes!
Wa-ah?!
o-nce again!
What is the real purpose of this game?!
That explains the full-face helmets though
Ow, ow

#235

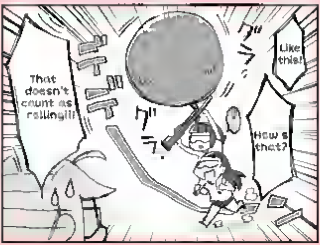
In the end we went with the normal version of "Toss the ball"
Since I'm short I'm pretty bad at the ball-tossing game
I don't miss in the bullet version though
Yacchan, can't you just slam dunk
With those antennae of yours?
That can't be actually possible!
It did move though!
UOOOH
I see! Let's try that out!
Yachiyo

BANG
BANG!
The next event is rolling a giant bullet!
You can't use your arms or legs, you should use your gun instead! Shooting and pulling it are both fine!

Woah
It's not going too well with these guns



Yae-chan!
Leave it to me!!



That doesn't count as rolling!!
Like this!
How's that?

Ready.. Go!
Next is the "Berry-wing race"!

I'm first!
A-a-a-
A light got it!
A-b-black thong?!
As if there's anyone who could bring this!
Much less lend it!
Yuma

My request is an A-cup bra, so how about an exchange?
If you need a black thong, I actually happen to have just the thing!
Daisuke

GO TO HELL!
See ya
Yuma

Next is the second round of the "Sor- rowing race"!
Start!
Iyachiyo!

Hmm
Let's see
Panties with a bear print
PAN- TIES WITH A BEAR PRINT?!

Nobody would have those
Eeh .. Of course I can't find any..
We're in high school after all
Ahaha

Sonora- senpai, stop that!
Please shut up!
Eh-
Yuna is wearing them today!
You're lucky!

I sure hope it's not some thing weird
"Borrowing race", round three!
One by one, the players are opening the envelopes!
Ah, I've got one!
Anybody? Please lend one!
Aika
Is there anyone with a bottle of tea?
Hm?
Yelchi
But Yelchi is drinking from it right now, so wait a moment
Don't you need it?
Indirect kiss!!!
She's got nothing but yaoi in her head

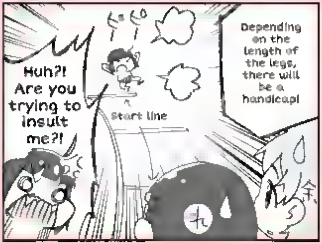
Of course the first one is Haruno Ain from Meisei
Ain
"Borrowing race" round 4, start!
Child-hood friend
!?
W-
What?..
It's not like I want you to run with me or anything!!
Child-hood friend
Haha.
So that's what it was

Yaay!
Rento
Woah, while Rin and Semora exchange glances, Rento from C3bu is at the finish line!
Here
But Rento came empty-handed
The judges are going to check her note...
If you don't bring the item to the goal of
I did bring it!
10
11
.. the "borrowing race", you're going to be disqualified...
They're here!!
Rento
But since I ate those sweets a while ago...

Something decent for once!
The foot race!
Yay!
Let me host too!
Let's continue with...

It's time for Yachiyo, Eiko's sister, to shine!
I'm in, too!
Rento

Hm?
As for the special rule...



Huh?! Are you trying to insult me?!
Start line
Depending on the length of the legs, there will be a handicap!

ゴーン ゴーン
Now Meisei's Haruno Rin takes part in the first round of the obstacle course!
She has already entered the net!
Rin, it's the side you came from!
I just thought I have to get ready first!
I... I... I know!
Haruno Rin has
Rin, it's the wrong side again!
no sense of direction

Ai-in!
Join me for lunch!
From now on there is a one-hour recess!
And there's also a curry shop here today...

N
No, thank you!
Ah

As always, she's trying to...
...pretend we're friends...

Haruno Rin's sense of direction is hopelessly bad
So...
Where...
am I?

Yay
You almost never see Kae actually wearing the uniform of their name-sake!
Now then! As for our lunch break entertainment, we have volunteers for the cheering competition!

Seto family have dressed in cute yukata!
Ozbu are also cos-playing!!

Of course I ended up in bloomers...
And here I wanted to wear something cute
Yura
Don't look so down, Yura!
I mean, Look at me!

It's already autumn and yet..
It's always the swim-suit
Kae
I guess I should pity her..

Death-match until sunset!
And the last contest is of course, airsoft!
The team with the most players left alive is the winner!
Go!
And so, the game starts!
Ready...
Karita
Right?!
Right?!
That doesn't count- promise me!
H-hey...
Let's call it a restart
Karita

Ah
Aren't Kaie hiding over there?
We'll get them all in one fell swoop!
W-what?!
Are you talking to me?!
!?
Ah! I see an idiot!
That was a trap!
A trap!
Man, Kenko senpai is so easy to deceive you!
Yure
Ken-chan, look who's talking!
Don't just stand there!
You are indeed too easy to lure

#248

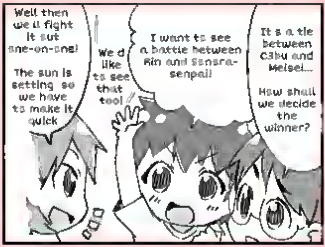
Ugh... It's Rin's team
Can't even show a hand or a foot
If that's the case, might as well!..
You can't aim at me like that!
La-la-la
Whoosh!
SNAP
Are you an idiot?

The sun has set, so the last event area's fin, is over!
Survivors please come back from the field!

Huh..
Rin's not here yet
Has anyone seen her?

I ha ven't
Dunno
Well, whatever
She's good at hiding after all...
Hmm

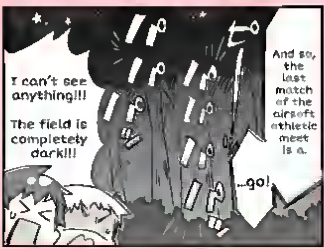
Once again, Rin has no sense of direction whatsoever
Whe re...
...um I?



Well then we'll fight 1 on 1 but one-on-one!
The sun is setting so we have to make it quick
We'd like to see that too!
I want to see a battle between Rin and Sensei-senpai!
It's a tie between Saku and Meisei...
How shall we decide the winner?

Let's settle this today

Right



I can't see anything!!!
The field is completely dark!!!
And so, the last match of the airsoft athletic meet is a...
...go!

Hey, Let's call it a draw for today
It's seriously night already
Yeah
Let's have a rematch someday
Guys! Were you watching our glorious battle?
That's what I call pretending to be friends
Eh?
No way?
Ah
you're late

Here
There, there
So first of all you have to eat
You can't fight on an empty stomach
We'll use glow-in-the-dark bullets with tracers for a night battle!
And then we'll have fun!
Heh.
But that does sound fun
Man, you still have energy for that
All together!
Let's have a blast!
Yeah!!

FIN.

THANK YOU VERY MUCH!
